

Our ref:

Your ref: Sherfield English Parish Ecology Request

Date: 18 January 2021

Dear Ms Gooding,

**RE: ECOLOGICAL DATA SEARCH: SHERFIELD ENGLISH PARISH**

Thank you for contacting us on 07 January 2021 expressing your interest in the above data search. Please find attached:

(\*Note maps marked with an asterisk are provided in two parts for easier viewing)

1. A table detailing any protected and notable species currently on the HBIC database found within the vicinity of your search area, please contact HBIC if further details are required for any of these records.
2. A table detailing any Hampshire Responsible Declining and Near Threatened Species currently on the HBIC database found within the vicinity of your search area. Please contact HBIC if further details are required for any of these records.
3. A table detailing any invasive non-native species currently on the HBIC database found within the vicinity of your search area. Please contact HBIC if further details are required for any of these records.
4. A map\* showing Sites of Special Scientific Interest (SSSIs), Special Areas of Conservation (SACs), Special Protection Areas (SPAs), RAMSAR sites, National Nature Reserves (NNRs), Local Nature Reserves (LNRs) Sites of Importance for Nature Conservation (SINCs) Road Verges of Ecological Importance (RVEI), sites which are included in the 'Solent Wader and Brent Goose Strategy' and sites that appear on the Hampshire Ancient Woodland Inventory within your area of interest. There are no other statutory or non-statutory designated sites within your search area other than those shown on the map attached.
5. A table listing the SINCs within your area of interest and their qualifying criteria.
6. A map\* showing Priority Habitat information within your area of interest. Click here for the [legend](#)
7. A map\* showing Broad Habitat information within your area of interest. Click here for the [legend](#)
8. A map showing the 'Ecological Network Mapping' within your area of interest. Information about this can be found at point 7 on our website [here](#).
9. A map\* showing the Biosites within your area of interest. Biosites are areas for which we hold detailed survey information, to NVC or Phase 2 level.

10. A table detailing the Biosites within your area of interest. Biosites are areas for which we hold detailed survey information, to NVC or Phase 2 level. Pdf copies of surveys can be provided for an additional charge.

Please note the following points:

- A some of your buffer area is within Wiltshire, so species and protected sites in that zone are not provided.
- The attached maps contain some areas with no designation. This may be due to the fact that we currently do not hold any ecological survey information on these areas of land. It should not be taken to mean that there is no ecological interest present.
- The boundaries for statutory sites have been provided to HBIC, by Natural England, as digital data. The digital data is indicative not definitive. Paper maps produced by Natural England at the time the sites were designated show the official site boundaries.
- To view the designation criteria for Sites of Importance for Nature Conservation in Hampshire please follow this link: [Criteria for SINC's in Hampshire](#)
- HBIC do not currently hold species information for certain taxonomic groups. The main datasets which have been included are listed at the top of any species list provided. If you need to confirm how comprehensive the provided records are, please contact HBIC.
- The Hampshire Inventory of Ancient Woodland is a provisional inventory that was published in 1995 by Hampshire County Council on behalf of English Nature (as Natural England were previously known). Sites that appear on the Inventory are over 2 hectares and include ancient semi-natural woodland and ancient replanted woodland.
- The location of species records are based on [Ordnance Survey National Grid References](#), click here to view an explanatory note on this system.
- The data supplied to you is subject to our [Data Users Declaration](#) (click to view) which you read and agreed to when you submitted your data request form.
- The Recording Societies would be very grateful for copies of any species records you make in Hampshire, just add your sightings directly onto Living record [www.Livingrecord.net](http://www.Livingrecord.net) where they will be picked up. Click [here](#) for a full list of the recording groups in Hampshire.
- The caveats and statuses of each Priority Habitat are explained in the [Annual Monitoring Report](#).
- The [Metadata Accompanying HBIC's GIS Layers](#) can be viewed by clicking on this link.
